

Slide 1 - Splash

The slide features a blue gradient background with a faint watermark of a scale of justice and the text "AO-OIT-SDS TRAINING PROGRAM". The main title "Creating Cross-Document Hyperlinks" is centered in a large, bold, blue font. Above it, the text "Welcome to" is partially visible. In the top right corner, there is a navigation bar with the title "Creating Cross-Document Hyperlinks in CM/ECF" and an "Animation" button. A white information box with a blue border is positioned in the upper right, containing the following text:

Electronic Learning Module Version 1.0
Appellate CM/ECF Version 2.0
Production Information:
Produced for the Appellate Courts by AO-OIT-SDSD-TB
July 1, 2008

Slide notes

Welcome to the lesson on creating cross-document hyperlinks. The purpose of this lesson is to show you how to create hyperlinks to CM/ECF documents within other documents.

Slide 2 - Navigation**Navigation Instructions**

In order to closely simulate the various applications, each screen in this lesson will contain instructions for you to follow that mimic the actual software. Follow those instructions to progress through the lesson.

You may also use the playback controls at the bottom of each screen. You may move forward or back and you may rewind to the beginning of the lesson. You can also drag the progress indicator bar forward or back through the lesson. The playback controls include a pause/play button. If you pause the lesson, click the button again to resume.

There is also a menu on each page in the upper left corner. If you move your mouse over the word **MENU**, a menu will drop down. You can click on the desired topic to jump to that part of the lesson.

These CM/ECF lesson modules also have a Closed Captioning feature. Click the CC button in the playback controls to toggle closed captioning on or off. You may also click the speaker icon to toggle the audio on or off.

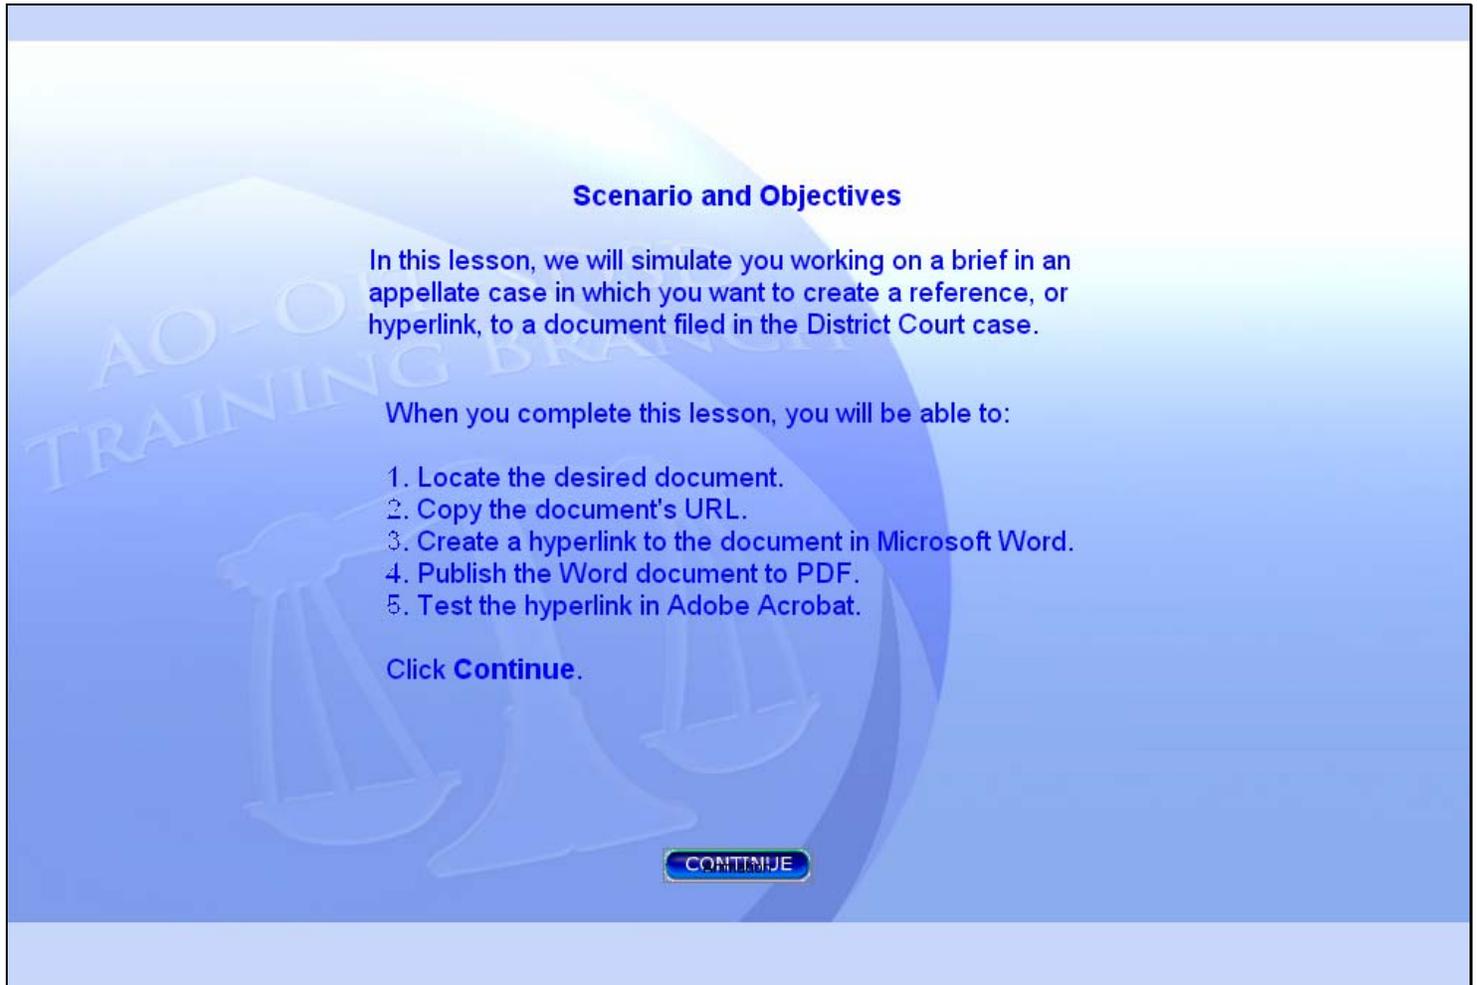

For version information about this lesson module, roll your mouse over the "i" in the heading.

To exit the lesson, click the X in the upper right corner of the lesson window, or select **Exit the Lesson** from the menu.

Click the **Start** button when you're ready.

**Slide notes**

Here are the instructions on how to navigate through this electronic learning module. When you're ready to begin, click the Start button.

Slide 3 - Objectives

Scenario and Objectives

In this lesson, we will simulate you working on a brief in an appellate case in which you want to create a reference, or hyperlink, to a document filed in the District Court case.

When you complete this lesson, you will be able to:

1. Locate the desired document.
2. Copy the document's URL.
3. Create a hyperlink to the document in Microsoft Word.
4. Publish the Word document to PDF.
5. Test the hyperlink in Adobe Acrobat.

Click **Continue**.

Now we've switched over to Microsoft Word and are editing our brief. In this lesson we're using Word version 2002, but Word 2003 works in a similar way.

We have also installed Adobe Acrobat Professional on our computer. This will enable us to convert this document to a PDF file that will retain the hyperlink we are going to add.

In the text of our brief, we refer to document number 9 in the District Court case. In order to make the text Doc. No. 9 into a hyperlink to the actual document, we must first select the text that will become the hyperlink. There are several ways to select text in Word. We'll use the Click - Shift Click method. This means to click the mouse at the beginning of the text to be selected, then hold down the shift key and click at the end of the text to be selected. All text between the click and the shift click will be selected.

Point your mouse at the beginning of the text to select and click once.

Like selecting text, there are several ways to paste the clipboard contents. We'll use the keyboard shortcut keystroke of CTRL+V. The URL will be pasted into the Address field. Hold down your control key and type the letter V.

And Windows pastes the URL into the Address field.

The URL we just pasted is to the first page of document number 9 in the District Court case. It is possible to create a hyperlink to a specific page in the document instead of the first page. For example, if you wanted to refer to page 6 of document number 9, you would take an extra step here. You would add ?page=6 to the end of the URL for the page number. We'll leave it at the first page in this lesson.

Now, click the OK button.

We are now going to convert this Word document to a PDF file. In order to do that, we must have the Adobe Acrobat writer (or other similar) software installed on our computer.

In order for the PDF file to maintain the hyperlink we just created, we can't use the method where you select File, Print, then Adobe PDF as the printer. This method will create a PDF file, but the hyperlink will not be a working hyperlink. Instead, we will use the Adobe PDF option in the menu. This option is added to the Word menu when you install the Adobe Acrobat writer software.

To begin the process, click Adobe PDF in the menu.
